– 30 pictures of […] Mr Bellows, the Unknown Graphic Designer - Greetings, I've been glad to be among the first participants of this contest! I've been interested in graphic design for years and quite often used to designing myself. But I never really imagined I could submit my own work! Yet I know that the best work is created when you have no knowledge of the rules. The thing I like most is the first impressions you create. It's the small details that make a difference. I think this is the most important thing in the creation of a graphic. Of course, we all know that if you start working on a project with something in mind, the final result will be much better. But it's good to get the things underway and do the best you can do! Very happy you have taken interest in this project and created your own experience – the best is yet to come! I hope it won't take too long for me to add you to my followers and when the finished work is ready, you can admire it on my wall! My name is Andrei Mihailovitch, I'm 23 years old and I live in Pretoria, South Africa. I've been working in the field of graphic design for the last 12 years and have worked in the advertising industry for the last 4 years. I believe my experience and graphics skills can benefit you greatly in creating your own experience - I'd love to help you out with anything. Thank you for taking your time to look at my work and I look forward to hearing what you think once you have finished!// SPDX-License-Identifier: GPL-2.0 /* * helpers for various ioctl control requests */ #include #include #include #include #include #include struct compat_blkpg_ioctl_arg { compat_int_t cmd; compat_u64 arg; unsigned int flags; }; #define CMD_IDENT_BSDR(x)

Gold Team The Winter Games will kick-off in Torino from 6-22 Feb 2012 and will span over a six day period with a total of 58 events in six different sports. Let's take a look at the contenders. Decathlon The Decathlon, which consists of ten disciplines over the course of a day, will be decided by the cumulative score of the ten events. USA's Ashton Eaton is the top favorite to repeat his gold from Beijing in the Decathlon event. For the top Chinese competitors, Liu Xiang and Li Ning have both revealed a plan to neutralize Eaton. Led by the two events which are recognised as the most critical ones for the decathlon, the weight and pole vault, it may not be an easy task to create any difference. The Chinese will be looking to sew up the first medal of the Winter Games in their stadium, the Guangzhou Oriental Sports Center. Last Year: Gold in Beijing (2004) Eaton is the clear favourite for the 2012 edition, after beating all the contenders in the first qualifier by a mile. The American, 26, has won the decathlon twice in his career, 2009 and 2010 being his most successful run. He is likely to compete in all 10 events. Börje Eriksson (Sweden) Eriksson is an Olympic Champion and World Record holder in the 10,000m run and the standing long jump, which will make him the fourth man to be able to do both. Eriksson, 28, won the 2006-07 season of the Australian decathlon and has been one of the leading favourites for the next decathlon after his record breaking fourth place in the Beijing decathlon. Gutiérrez Romero Headed to Rio After 2013 World Championships Daniel Carrillo and Alejandro Romero Other current leaders are Argentina's Alejandro Romero, the holder of the 2 kilometre race best time, and Norway's 23-year-old Daniel Carrillo. Romero who has a 3:50.57 10,000m and best standing long jump, is the favourite for his country. The 28-year-old Carrillo, is a member of the quartet who set the 3-mile world record in 2014, with his time of 8:30.06. The third member of the group, León Martínez, who is also the defending champion in the decathlon, is concentrating on the pole vault instead
